GLENSHAW, PA.

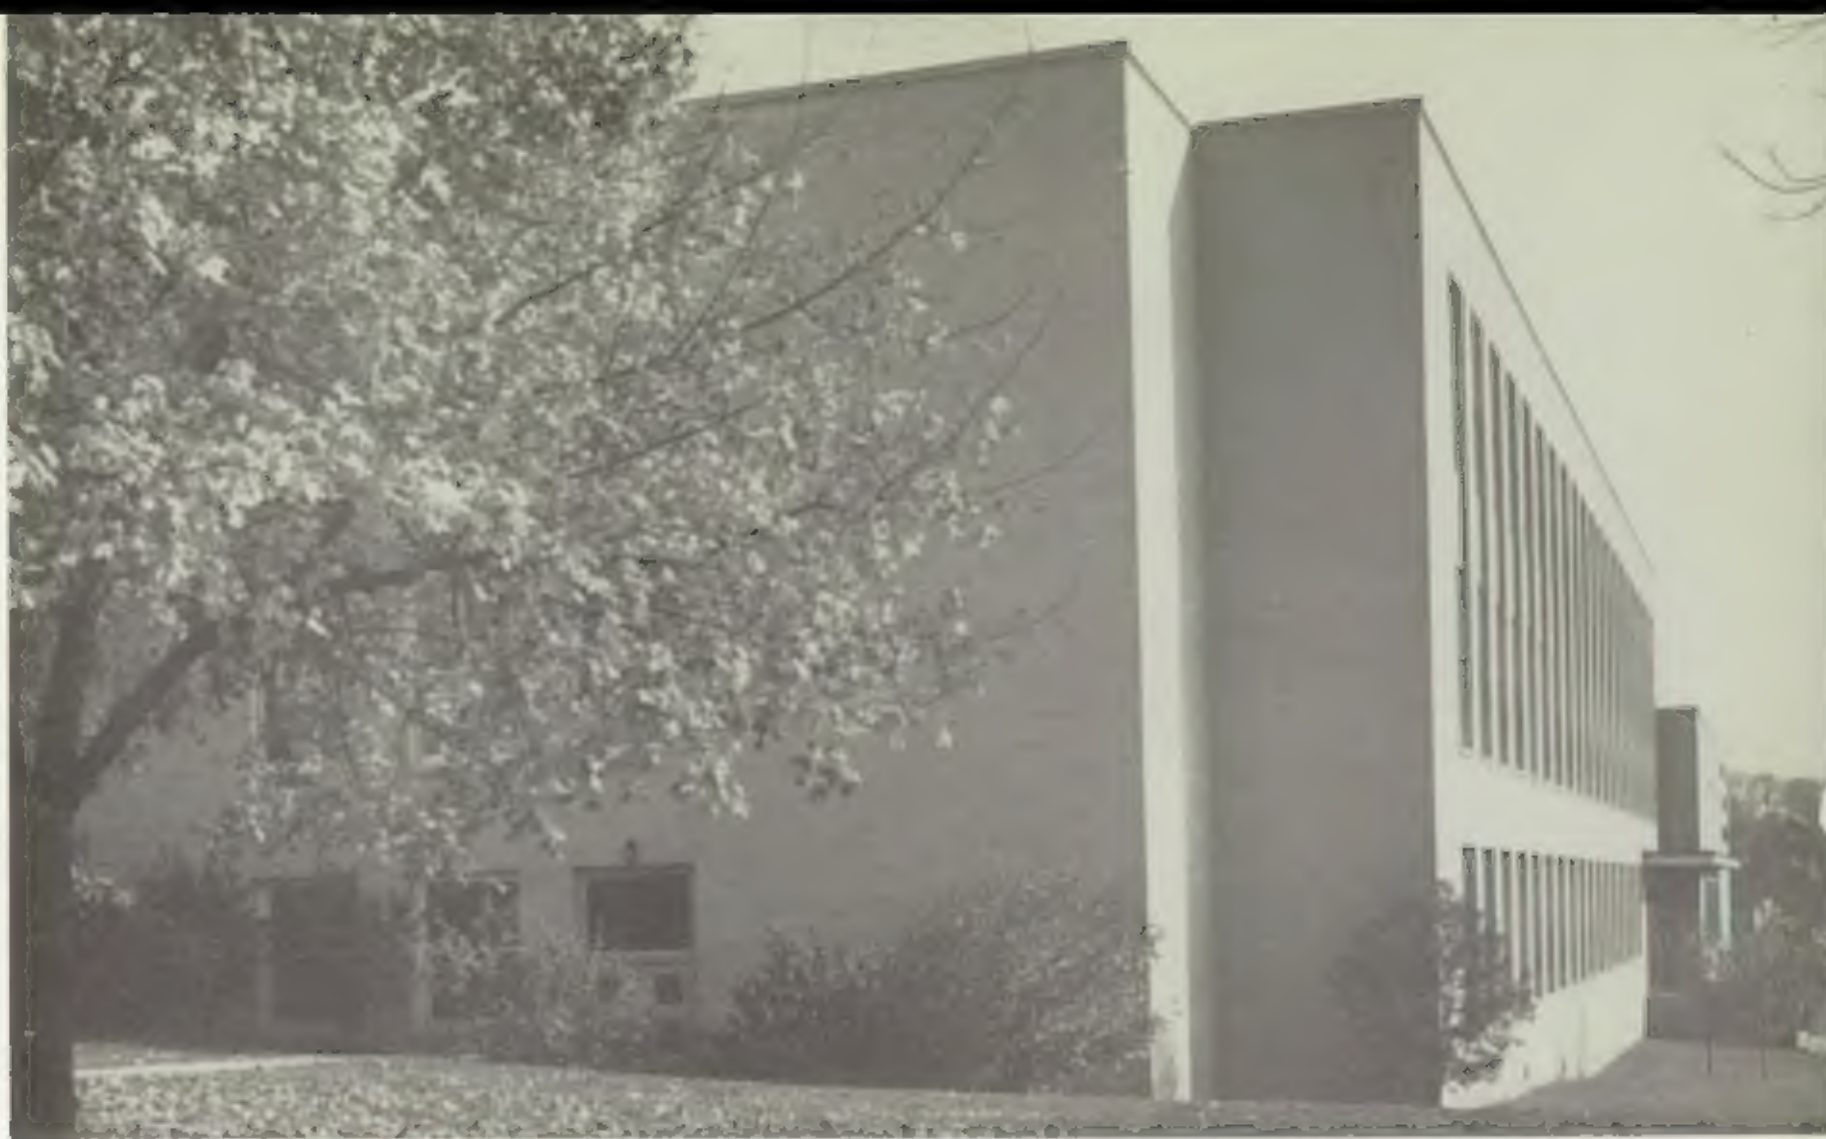

# SHALER HIGH SCHOOL

## FOREWORD

Now it's all history. That wonderful year 1959-60 with all its triumphs and sorrows, achievements and disappointments, laughter and tears is here in the 1960 SHALERESQUE.

As SHALERESQUE relives the 1959-60 school year, it will glance briefly into all the phases of school life which have combined to make this a most unforgettable year for us who lived it. We will see the faculty and the students in their everyday environment as they experience those happenings that made this year such a memorable one.

As school began in the fall, football games, dances, and cross country filled the air with excitement. Fall turned into winter and wrestling and basketball took over the sports agenda. Spring Carnival and the campaign for Student Council officers provided the two big events on our early spring calendar. As school drew to a close, exams dampened the spirits of the underclassmen, while the seniors were filled with graduation plans. Yes, the 1959-60 school year has been important to us and SHALERESQUE will never let us forget any of its thrills.

As you open your SHALERESQUE, you find yourself touring the campus. Each section brings out new facets of our school life. The turning of each page represents the end of one phase of that life and the beginning of another.

As you close the cover, you close also a chapter in the story of your life; but this chapter will always be alive and bright through the pictures and words in your 1960 SHALERESQUE.

# Local Business Council Can Assist For All Areas

The local business council can assist in many ways. It can help in the development of new businesses, the expansion of existing ones, and the improvement of the overall business environment. The council can also provide information and advice on various business matters, such as financing, marketing, and legal issues. This can be particularly helpful for small businesses and entrepreneurs who may not have access to these resources otherwise.

The council can also help in the recruitment and retention of skilled workers. It can provide information on the local labor market and help businesses find the right people for their needs. It can also help in the training and development of workers, which can improve their skills and productivity. This can be particularly helpful for businesses that are looking to expand or enter new markets.

The council can also help in the promotion of the local area. It can provide information on the local economy and the opportunities it offers. It can also help in the development of marketing and promotional campaigns for the local area.

The council can also help in the improvement of the local infrastructure. It can provide information on the local infrastructure and help businesses and the community identify areas for improvement. It can also help in the development of plans and programs for the improvement of the local infrastructure.

## To Express Creativeness In A Variety Of Ways

Three fields of instruction are open to students who wish to pursue further their interests. In the ceramics classes students make ceramics and pottery and work with such materials as leather and metals. Jewelry classes

students the experience of working with precious metals and stones and a knowledge of basic techniques, such as welding and cutting.

For those students interested in instrumental music Shaler offers several opportunities. The Varsity Marching Band plays games as well as

ensembles composed of the regular band.

Summer Church Work for Monthly Devotional

1924-1925

1924-1925

# Laboratories and Class

Shaler offers a wide range of science courses to all of its students. Freshmen are given general science which provides them with a basic background for future science courses. In their sophomore year, students may choose between two specialized sciences. Bio-agriculture, a general study of biology, is usually taken by the commercial and general students and academic biology by the college preparatory students.

Academic students are offered two advanced science courses in their junior and senior years,

chemistry and physics. Students receive two lab periods a week in addition to daily class, to allow them to apply their knowledge. Those seniors who wish to continue in the field of medicine or biology may take senior biology. General science is also offered in the senior year to those who would like to study some basic chemistry and physics not involving math. In these ways, Shaler prepares its students for any phase of science in a world which is becoming more scientific-minded with each passing day.

## IN READING AND READING WITH COLLEGE STUDENTS

The first of the two studies was a survey of the reading habits of college students. The results of the survey are presented in the following table. The second study was a series of interviews with college students about their reading habits. The results of the interviews are presented in the following table.

Reading Habit	Percentage of Students
Read daily	45%
Read weekly	30%
Read monthly	15%
Read rarely	10%

The results of the survey show that the majority of college students read daily. This is a positive finding, as it suggests that college students are engaged in reading. The results of the interviews show that college students read for a variety of reasons, including for pleasure, for information, and for research. This is also a positive finding, as it suggests that college students are using reading as a tool for learning and growth.

The first step in the process of learning is to understand the concept. This is done by reading the text and listening to the teacher. The next step is to apply the concept to a problem. This is done by working on the problem and checking the answer. The final step is to evaluate the answer. This is done by comparing the answer to the correct answer and seeing if it is correct.

## Learn Through the Application of Theory

# Physical Education Department

The Physical Education Department is composed of Mrs. Wiley, Mr. Martin, and two substitutes. The objectives of the department are to build and maintain good physical fitness and to develop the physical objectives, the department uses a variety of activities. The winter program is dominated by basketball, volleyball, and calisthenics. The boys' winter program of tumbling, rope work, basketball keeps them physically active in class.

## Special Section

Hilbert's 10th problem was solved by Yuri Matiyasevich in 1970.

## The Year Details That Have Been Jittery Going

CLASSES

... ..

The first part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $f_n(x)$  defined by the recurrence relation  $f_{n+1}(x) = \frac{1}{2} (f_n(x) + f_n(x^2))$  for  $n \geq 1$  and  $f_1(x) = x$ . It is shown that  $f_n(x)$  converges to a function  $f(x)$  which is the unique solution of the functional equation  $f(x) = \frac{1}{2} (f(x) + f(x^2))$  and  $f(1) = 1$ . The function  $f(x)$  is called the "asymptotic function" of the sequence  $f_n(x)$ .

In the second part of the paper, the asymptotic behavior of the sequence of functions  $g_n(x)$  defined by the recurrence relation  $g_{n+1}(x) = \frac{1}{2} (g_n(x) + g_n(x^2))$  for  $n \geq 1$  and  $g_1(x) = x^2$  is studied. It is shown that  $g_n(x)$  converges to a function  $g(x)$  which is the unique solution of the functional equation  $g(x) = \frac{1}{2} (g(x) + g(x^2))$  and  $g(1) = 1$ . The function  $g(x)$  is called the "asymptotic function" of the sequence  $g_n(x)$ .

The third part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $h_n(x)$  defined by the recurrence relation  $h_{n+1}(x) = \frac{1}{2} (h_n(x) + h_n(x^2))$  for  $n \geq 1$  and  $h_1(x) = x^3$ . It is shown that  $h_n(x)$  converges to a function  $h(x)$  which is the unique solution of the functional equation  $h(x) = \frac{1}{2} (h(x) + h(x^2))$  and  $h(1) = 1$ . The function  $h(x)$  is called the "asymptotic function" of the sequence  $h_n(x)$ .

The fourth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $k_n(x)$  defined by the recurrence relation  $k_{n+1}(x) = \frac{1}{2} (k_n(x) + k_n(x^2))$  for  $n \geq 1$  and  $k_1(x) = x^4$ . It is shown that  $k_n(x)$  converges to a function  $k(x)$  which is the unique solution of the functional equation  $k(x) = \frac{1}{2} (k(x) + k(x^2))$  and  $k(1) = 1$ . The function  $k(x)$  is called the "asymptotic function" of the sequence  $k_n(x)$ .

The fifth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $l_n(x)$  defined by the recurrence relation  $l_{n+1}(x) = \frac{1}{2} (l_n(x) + l_n(x^2))$  for  $n \geq 1$  and  $l_1(x) = x^5$ . It is shown that  $l_n(x)$  converges to a function  $l(x)$  which is the unique solution of the functional equation  $l(x) = \frac{1}{2} (l(x) + l(x^2))$  and  $l(1) = 1$ . The function  $l(x)$  is called the "asymptotic function" of the sequence  $l_n(x)$ .

The sixth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $m_n(x)$  defined by the recurrence relation  $m_{n+1}(x) = \frac{1}{2} (m_n(x) + m_n(x^2))$  for  $n \geq 1$  and  $m_1(x) = x^6$ . It is shown that  $m_n(x)$  converges to a function  $m(x)$  which is the unique solution of the functional equation  $m(x) = \frac{1}{2} (m(x) + m(x^2))$  and  $m(1) = 1$ . The function  $m(x)$  is called the "asymptotic function" of the sequence  $m_n(x)$ .

The seventh part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $n_n(x)$  defined by the recurrence relation  $n_{n+1}(x) = \frac{1}{2} (n_n(x) + n_n(x^2))$  for  $n \geq 1$  and  $n_1(x) = x^7$ . It is shown that  $n_n(x)$  converges to a function  $n(x)$  which is the unique solution of the functional equation  $n(x) = \frac{1}{2} (n(x) + n(x^2))$  and  $n(1) = 1$ . The function  $n(x)$  is called the "asymptotic function" of the sequence  $n_n(x)$ .

The eighth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $o_n(x)$  defined by the recurrence relation  $o_{n+1}(x) = \frac{1}{2} (o_n(x) + o_n(x^2))$  for  $n \geq 1$  and  $o_1(x) = x^8$ . It is shown that  $o_n(x)$  converges to a function  $o(x)$  which is the unique solution of the functional equation  $o(x) = \frac{1}{2} (o(x) + o(x^2))$  and  $o(1) = 1$ . The function  $o(x)$  is called the "asymptotic function" of the sequence  $o_n(x)$ .

The ninth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $p_n(x)$  defined by the recurrence relation  $p_{n+1}(x) = \frac{1}{2} (p_n(x) + p_n(x^2))$  for  $n \geq 1$  and  $p_1(x) = x^9$ . It is shown that  $p_n(x)$  converges to a function  $p(x)$  which is the unique solution of the functional equation  $p(x) = \frac{1}{2} (p(x) + p(x^2))$  and  $p(1) = 1$ . The function  $p(x)$  is called the "asymptotic function" of the sequence  $p_n(x)$ .

The tenth part of the paper is devoted to the study of the asymptotic behavior of the sequence of functions  $q_n(x)$  defined by the recurrence relation  $q_{n+1}(x) = \frac{1}{2} (q_n(x) + q_n(x^2))$  for  $n \geq 1$  and  $q_1(x) = x^{10}$ . It is shown that  $q_n(x)$  converges to a function  $q(x)$  which is the unique solution of the functional equation  $q(x) = \frac{1}{2} (q(x) + q(x^2))$  and  $q(1) = 1$ . The function  $q(x)$  is called the "asymptotic function" of the sequence  $q_n(x)$ .

© 2000 Blackwell Science Ltd, *Journal of Internal Medicine* 247: 395–402

Our Junior year was truly a year of firsts. Glenn Breitzig was the first Junior ever to become president of Student Council. Helping Glenn carry out the duties of Student Council were two other juniors, Linda Rodenbaugh and Lida Rodenbaugh. Another election saw Skip Barnes, vice president and Joe Hoyt, treasurer of the Junior class. Another first was the Junior-Senior Prom, at the Edge-Club when Linda Rodenbaugh was our Prom Queen.

And now, the climax of these Senior Year. In the same respect that year was a year of "firsts," our Senior year was a year of "lasts." As the football, wrestling, all track and baseball seasons close, our final sports events as students of Shaler High School. Our Senior party, where we all dressed in hullybys, was probably the only time Betty Milbert and John Neff will win the "hullybys." The Senior Banquet at the Hilton Hotel, was our final high school event. All who attended. Spring saw Seniors, practicing for the inspiring Baccalaureate program; and finally, Graduation itself. A year drew to a close, so did our years, but we can never forget the friends we made and the things we did as The Class of 1960.

# ACTIVITIES

The student is working on a project that involves a lot of research and writing. They are using a variety of sources to gather information and are working hard to complete the project on time. The student is also working on a presentation to go along with the project and is practicing their speech in front of a mirror.

## Students in the Community

The students in the community are working hard to make a difference. They are participating in a variety of activities, including volunteering at a local hospital, working on a garden, and participating in a charity walk. The students are also working on a project to raise money for a local charity and are selling their handmade items at a fair. The students are proud of their work and are looking forward to seeing the results of their efforts.

The students in the community are also working on a project to raise awareness of a local issue. They are creating a poster campaign and are distributing the posters in the community. The students are also working on a video campaign and are filming a video about the issue. The students are proud of their work and are looking forward to seeing the results of their efforts.

## Widom Language School

The Widom Language School is a private school for students of all ages. It is located in the heart of the city and is known for its excellent academic programs. The school has a long history and is proud to have produced many successful graduates.

The school is currently planning a new building and a new curriculum. It is also planning a new parade and a booth at the annual fair. The school is looking for volunteers to help with these projects.

The school is a member of the United States of the World. It is a proud member of the United States of the World and is committed to the values of the United States of the World.

Leaders' Club is composed of junior and senior students with a B average or better in gym and who take part in the G.A.A. program, and whose own objective is to develop leadership in the athletic program. Members of the Leaders' Club by their example and refereeing G.A.A. games.

One of the projects of the Leaders' is the election of a King and Queen at which the King and Queen are crowned. The boy chosen for this honor must be either a member of the football squad or a member of the basketball team; the honored girl must be a majorette, cheerleader, band member, or a Leader.

Another major project of the Leaders' is the annual G.A.A. Banquet at which G.A.A. emblems and ribbons are awarded. The Leaders' also take part in the Spring Carnival where they operate their Dunk-a-Dame booth, which is one of the carnival's most popular attraction.

## Members of the Choir at Easter Assembly

The choir members were seen performing at the Easter Assembly. They were dressed in their white uniforms and sang beautifully. The assembly was held in the school hall and was attended by many guests. The choir's performance was a highlight of the event.

[illegible]

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved.

2. The second step is to analyze the system's performance. This involves monitoring various metrics such as response time, throughput, and error rates.

3. The third step is to identify the root cause of the problem. This can be done by analyzing the system logs, error messages, and performance data.

4. The fourth step is to implement a solution. This may involve updating the software, configuring the hardware, or changing the data.

5. The fifth step is to test the solution. This involves running the system and monitoring its performance to ensure that the problem has been resolved.

6. The sixth step is to document the solution. This involves creating a record of the problem, the steps taken to resolve it, and the final solution.

7. The seventh step is to communicate the solution. This involves informing the relevant stakeholders of the problem and the solution.

8. The eighth step is to review the solution. This involves evaluating the effectiveness of the solution and identifying any areas for improvement.

9. The ninth step is to implement the improvements. This involves making the necessary changes to the system to address the identified areas for improvement.

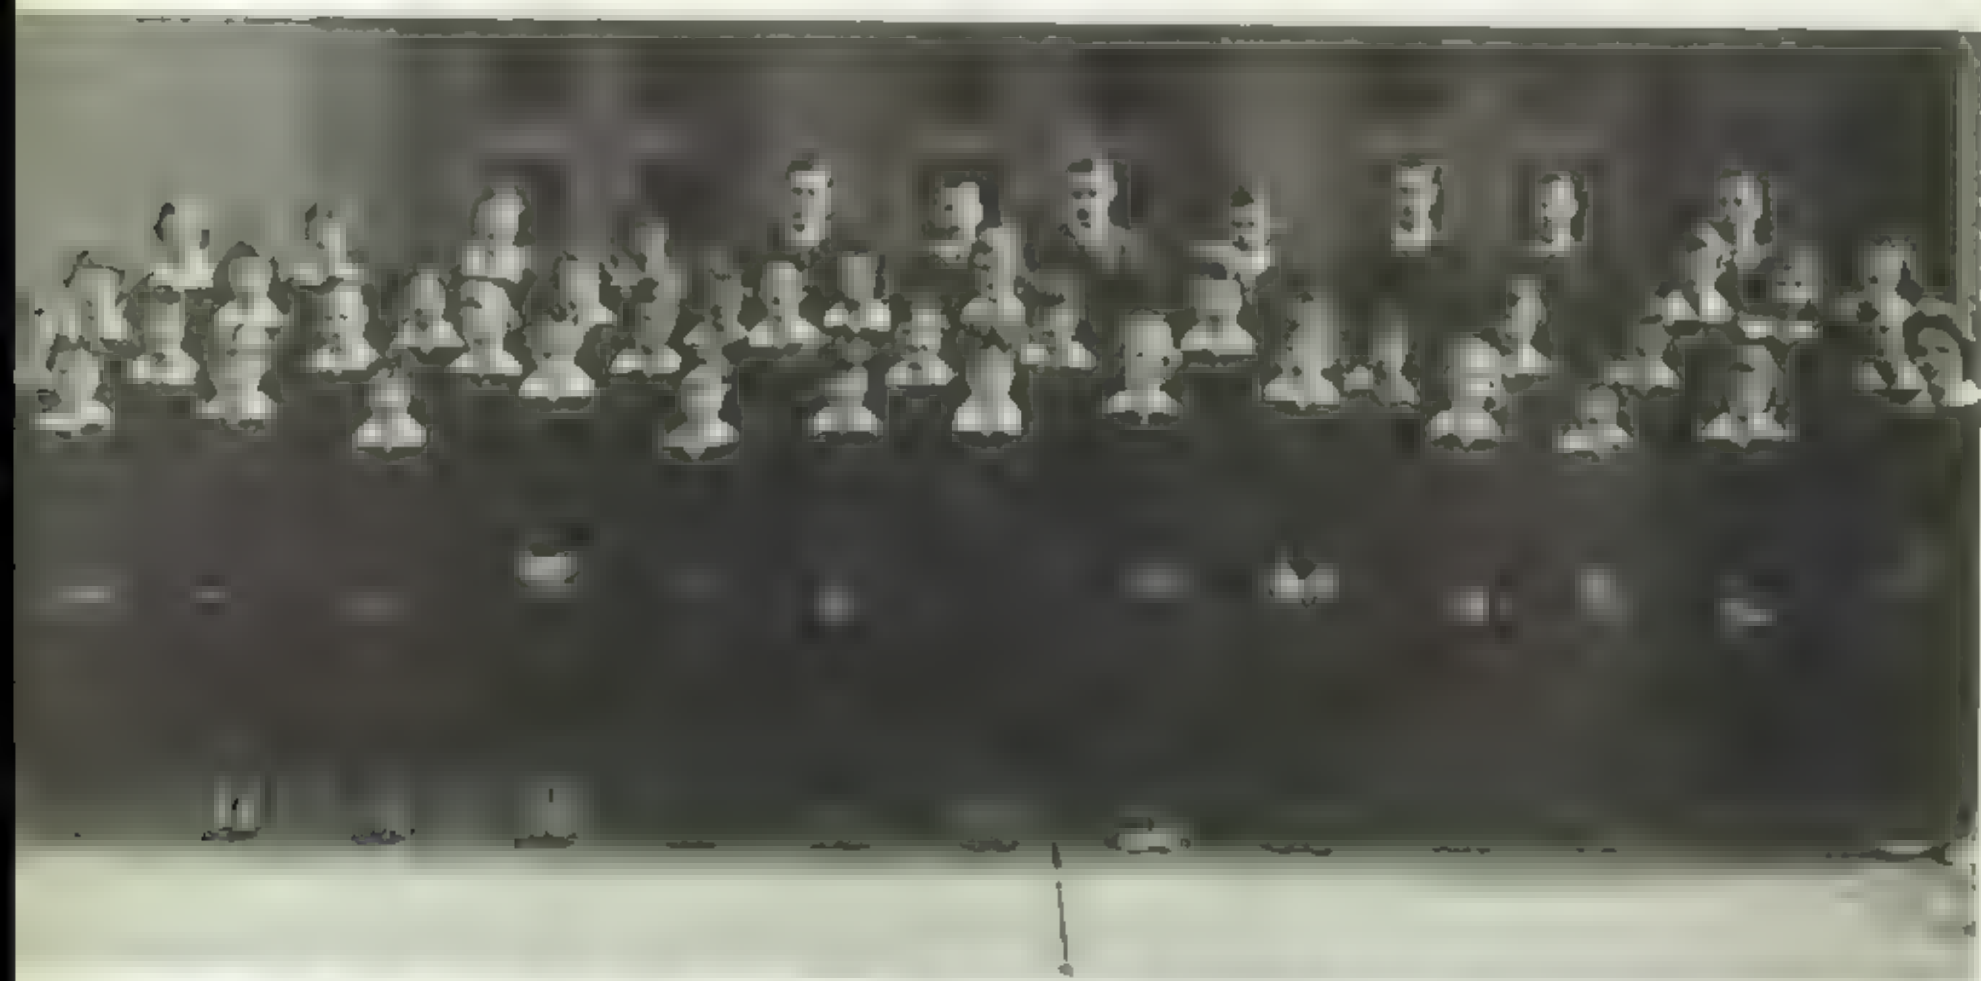

10. The tenth step is to monitor the system. This involves continuing to monitor the system's performance to ensure that the problem does not recur.

The following table shows the results of the regression analysis for the dependent variable *Y* (the dependent variable is the same as in the previous table). The independent variables are the same as in the previous table. The results are presented in the following table:

The first of these is the fact that the
 *Journal of the American Medical Association*
 has been the only one of the major
 medical journals to publish a
 *Statement of Principles* on the
 subject of the physician's
 ethical obligations. This
 statement, which was
 adopted by the American
 Medical Association in
 1954, is a landmark
 document in the history
 of medical ethics. It
 sets out the basic
 principles of medical
 ethics, and provides a
 framework for the
 development of
 specific ethical
 guidelines.

## Cheerleading

The cheerleading team is a group of students who are responsible for leading the school spirit during games and events. They are a vital part of the school's extracurricular activities and are known for their energy and enthusiasm. The team is composed of students from various grades and is led by a coach. They practice regularly and participate in many school events, including football games, basketball games, and pep assemblies. The cheerleaders are a source of pride for the school and are always ready to cheer on their teammates.

## Girls' Basketball

The girls' basketball team has been very successful this year. They have won several games and are currently in the playoffs. The team is led by captain [Name], who has been a key player for the team. They have a strong defense and are looking forward to winning the championship.

## Boys' Basketball

The boys' basketball team has also been very successful this year. They have won several games and are currently in the playoffs. The team is led by captain [Name], who has been a key player for the team. They have a strong offense and are looking forward to winning the championship.

## Harrison's Point Girls' High and Dads

# Baseball

Augustine, Jim Barnes, Bob Mullen, Roger Johnson, Al Damalak, are the six returning lettermen who this year's baseball team, coached by Mr. Martin, led to victory.

Coach Martin is in his second season, after his first year with a record of 10-1.

On April 4, Slader's opened with Bethel as its first opponent.

## 1959 SEASON'S RECORD

Slader-North Hills

Slader-North Hills

a hefty swing at Knoch's in the Slader-North Hills game

## Slader Team Swings A Powerful Hit

Sitting: Bradley, Straub, Hart, Kushon, Ehrenfeld, Kneeling: Dressh

Mullen, Standing: Damalak, Clark, LaScola, Bogner,

Mr. Ribrich, Hut

## Wrestling Take Section 2 Championship

The wrestling team, coached by Mr. Ribrich, has been successful in their recent matches. They won the Section 2 Championship in the wrestling match. The team consists of several members who have been practicing hard and showing great skill on the mat. The coach is proud of their achievement and hopes they will continue to improve and win more matches in the future.

The wrestling team is a proud member of the school's sports program. They have been working hard to prepare for this championship and are excited to represent their school. The team's success is a testament to their dedication and hard work. They will continue to strive for excellence in all their matches.

## 15. Diving

When you are diving, you are in a position where you can see the bottom of the pool. This is a good thing to know because it helps you to know where you are and what you are doing. You can also see the bottom of the pool when you are swimming. This is a good thing to know because it helps you to know where you are and what you are doing. You can also see the bottom of the pool when you are swimming. This is a good thing to know because it helps you to know where you are and what you are doing.
